| Includes preconfigured 4G-LTE hardware, Live-In-Five™ easy setup   | ✓                                | ✓                                   | ✓                                |
| Includes iStatus DataAlerts™, informing you of data usage via email  | ✓                                | ✓                                   | ✓                                |
| Fully automatic Internet connection failover   | ✓                                | ✓                                   | ✓                                |
| Includes AlwaysOn™ Internet connection, which doesn't sleep like consumer-grade solutions.                         | ✓                                | ✓                                   | ✓                                |
| Advanced hardware replacement warranty. (Immediate failure replacement, if failures ever occur.)                   | ✓                                | ✓                                   | ✓                                |
| Share data across all your locations with data pooling   | ✓                                | ✓                                   | ✓                                |
| Includes static external IP address  | ✓                                | ✓                                   | ✓                                |
| Includes iStatus® monitoring appliance, App & Dashboard, with ConnectionValidation™ failover connection monitoring | ✓                                | ✓                                   | ✓                                |
| Included monthly data  | 1GB                              | 1GB                                 | 1GB                              |
| Cost per Gigabyte of additional data   | \$19.95                          | \$19.95                             | \$19.95                          |

Pricing subject to change without notice, Internet speed is location dependent with typical speeds of 30Mbps x 20Mbps across the United States. Talk to RocketFailover experts to make sure that your Dual-WAN router or firewall is supported. See RocketFailover service agreement for additional details. Pricing listed above includes a \$4.95/month discount for automated payment via ACH or credit card.
